

VANGUARD

Liquid Quaternary Ammonium Bacteriostat

Vanguard is based on a highly active mixture of three Twin Chain quaternary ammonium compounds. Soiled and contaminated fabrics such as diapers, hospital and institutional linen, and athletic apparel is of major housekeeping concern, not only in hospitals, but in institutions, hotels, restaurants and schools. Vanguard is designed for commercial and institutional laundry use by addition to the final rinse step. For recommended solution concentration, see "Directions for Use" section on the label.

Features & Benefits

- EPA Registered product
- Used as directed, Vanguard provides effective residual bacteriostatic and 24-hour self-sanitizing properties for laundered items such as diapers, hospital and institutional linens, and athletic apparel
- Most effective at higher pH's
