- May be rinsed or allowed to air dry; streak free

Dilution Ratio:

- Standard - 0.3 oz/qt (1:128)

Available Sizes

Product ID	Container Size	Yield Rate: Quarts	Yield Rate: Gallons
93153	4 x 1 gallon case	2,048	512

**Yield Rates are calculated using the sanitizer dilution ratios and standard numerical rounding principles; yield rates may vary for specific pathogens*

7 - when used according to disinfection directions

8 - Hard, non-porous surfaces

Product Information

Product Line: Housekeeping

Category: Sanitizers
& Disinfectants

Matter: Liquid

Color: Yellow

Scent: Citrus fragrance

pH: 7.5 ± 0.5

EPA Reg. No. **47371-130-7116**
