

BISOFT PERLA

Encapsulated Fabric Softener

Bisoft Perla is a concentrated fabric softener that provides a long-lasting fragrance by utilizing both free perfume and encapsulated perfume technology. In addition to a free perfume which provides instant fragrance, micro-pearls remain on the fabric after the wash process and are activated upon rubbing or manipulating the fabric, resulting in a continuous, long-lasting fragrance as the linen is used.

Features & Benefits

- Developed for professional laundries washing hotel linens, towels and bedsheets
- Long-lasting fresh citrus fragrance
- Optimal softening effect, also at short cycle times
- Facilitates ironing
- Diminishes static electricity build-up
- No staining on colored fabrics; No deposits in ironers
- Will not evaporate during processing at high temperatures or during use
- Designed to be dosed in the last rinse cycle
